A New Angle on Modern Design With Wood

Creative minds transform wood into beautiful yet functional objects for your home.

Bruce Schuettinger of Mosart is a master of his medium. His [Pieces credenza](#) utilizes scrap pieces of wood that have been carefully trimmed and assembled in a mosaic that is museum worthy. The variation in color does not come from stain, but rather from the use of wood from 44 different tree species from around the world. The piece is assembled using only hand joinery and the finest techniques from the late 18th and early 19th century. This is a modern masterpiece made with old world craftsmanship.
